

Sigi³ Directory of Occupations

This alphabetic list includes every occupation in SIGI PLUS for which there is full information. It represents at least 1,600 typical job titles. The 264 names that appear in capital letters are the official SIGI³ Occupation Names. Names in upper and lower case are Alternate Occupation Names.

Online, you can choose occupations from three groups:

- SIGI³ Occupations

- Alternate Occupations

When you select an alternate occupation, you will be linked to an official SIGI³ occupation. For example, if you click on Account Executive from the Alternate Occupation list, you will be connected to Advertising Manager/Account Executive, the official SIGI³ occupation. In some cases, the alternate occupation will be linked to more than one SIGI³ occupation, so you can choose.

- Dictionary of Occupational Titles (DOT)

You can also access a SIGI³ occupation by selecting an occupation from the Dictionary of Occupational Titles (DOT) that is linked to it. DOT occupations are listed by occupational group, industry designation, and alphabetically by title. Choose a DOT occupation that appears in black, then select from the list of SIGI³ occupations linked to it.

Accountant, Inventory Control
Accountant, Private Practice
ACCOUNTANT, PUBLIC PRACTICE
ACCOUNTING CLERK
